Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Users face difficulty entering incident information correctly because required fields and field visibility are not properly controlled.
2.	Idea / Solution description	Implement Client Scripts and UI Policies in the ServiceNow Incident form to control fields, validate information, and improve the incident entry process.
3.	Novelty / Uniqueness	The solution automatically controls incident form fields based on user input and configured conditions.
4.	Social Impact / Customer Satisfaction	The solution makes incident entry easier, reduces data entry errors, and improves user experience.
5.	Business Model (Revenue Model)	The solution can support organizations using ServiceNow for incident management and can reduce manual effort in incident handling.
6.	Scalability of the Solution	The solution can be extended to support more Incident form fields, additional UI Policies, and Client Scripts as business requirements grow.
